

VAIBHAV JADHAV

Computer Science Engineer | Mobile App Developer | AI Enthusiast

☎ 8767008142 | ✉ vaibhavjadhav0391@gmail.com | 📍 Chhatrapati Sambhajanagar, MH

PROFESSIONAL SUMMARY

Detail-oriented Computer Science professional with a strong foundation in Software Development and Data Structures & Algorithms. B.Tech 2nd year student maintaining an outstanding CGPA of 9.45. Distinction-grade Diploma graduate proficient in Java, Python, and Mobile App Development. Proven ability to apply technical skills in professional internship settings and virtual environments, with hands-on experience building real-world Android applications.

TECHNICAL SKILLS

- Programming: Java, Python, C, C++, SQL
- Mobile Dev: Android Studio, UI/UX Design, App Logic & Architecture
- Web Dev: React, Next.js, TypeScript, Tailwind CSS, Vercel Deployment
- AI / ML: AI Model Implementation, Automation Solutions
- CS Fundamentals: Data Structures & Algorithms, Problem Solving, SDLC
- Soft Skills: Professional Ethics, Teamwork, Time Management, Agile

EXPERIENCE

Software Engineering Intern | Connect Soft Infotech, Pune Internship

- Collaborated with senior developers to apply professional software development ethics and best practices.
- Translated theoretical coding knowledge into real-world professional applications in a team environment.
- Demonstrated high discipline and cooperation in a fast-paced software development environment.

Virtual Intern | Deloitte Virtual Program

- Completed modules in coding, software development, and data model reconciliation.
- Prepared professional software development proposals and solved complex logic problems.

EDUCATION

B.Tech in AIDS — 2025 – Pursuing (2nd Year)

Maharashtra Institute of Technology, CSN | CGPA: 9.45

Diploma in Computer Science (MSBTE) — Completed

MSBTE Board | Result: Distinction

PROJECTS

SarkarSathi App 2026 [🔗](#)

Developed an application that helps users easily find government schemes and services in one place with a simple and user-friendly interface.

RescueNet – Disaster Management App 2026 [🔗](#)

Created a disaster management system that helps in emergency situations by providing rescue coordination and essential information.

TransitPulse – College Bus Tracker 2026 [🔗](#)

Real-time college bus tracking web app with ML-based ETA predictions that keeps working even offline.

QuickTransfer – Scan. Send. Done. 2026 [🔗](#)

Instant file transfer between phone and PC via QR code scan — no login and no third-party app required.

Advanced Translator App 2025 [🔗](#)

Developed an advanced language translation Android application with support for multiple languages, speech-to-text, and text-to-speech features using Android Studio.

Android Secure Login System 2026

Developed a secure login system with authentication, database integration, and security features like intruder detection.

Portfolio Website 2026

Designed and developed a personal portfolio website to showcase projects, skills, and achievements.

CERTIFICATIONS

- Advanced Programming Specialization – Udemy (Intensive coursework on advanced technical skill-building and logic)
- Currently exploring and implementing AI models for modern automation tasks

ACHIEVEMENTS & INTERESTS

- Academic Excellence: Awarded Distinction for Diploma in Computer Science (MSBTE)
- B.Tech 2nd Year CGPA: 9.45 – consistently top-performing student
- Innovation: Regularly engages in coding challenges and learning emerging AI technologies
- Community: Active participant in social service and community outreach programs
- Hobbies: Technical problem-solving, exploring new tech, and social service
